COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY, APRIL 4, 1906.

NUMBER 21

## THE RECITAL.

MRS. ANN BOWMAR DAILEY.

Misses Katie Murrell and Lina Rosenfield Entertain a Large Audience.

The recital given at the Lindsay Wilson Friday night by Misses Katie Murrell and Lina Rosenfield was enthusiastically received by the Columbia people, every number deserved the storm of applause which it received.

Miss Murrell bore herself with a degree of composure remarkable for one of her experience. She has only studied expression for one and a half years, but her interpretation of her readings was indeed fine.

Her program consisted of a variety of numbers which were distinct in style, showing Miss Murrell's wonderful versatility as a reader. "Marish's Mo'm" a fine characterization of the old time negroes, was rendered so naturally as to convince all who listened she was a native. Her voice was evocative in "Daffy," the beautiful poem by Thomas Buchanan Reed. Miss Rosenfield played a soft accompaniment which added much to its enjoyment. Her ability as an artist was more clearly shown in Eugene Aram's Dream than in any other. The heavy tragedy is so often overdone by young readers, but Miss Murrell handled it faultlessly.

In her short numbers she was very pleasing. When she had finished her last number—a bright monologue, everybody was loud in their praise of Miss Katie's talents.

Miss Rosenfield also did herself proud, showing marked ability as a pianist. Her numbers were rare treats. Her interpretation and technique were especially fine. "Murmuring Zephyr," by Jensen, was handled with delicacy of touch and with much feeling. Traumerie, which is one of the most soul feeling pieces, was rendered next, and was played in a most pleasing manner.

Her two heavy numbers, the "Tanner" and "Dance," by Brahms and Aram, were by Columbia, she gave in a manner which exhibits her skill and ability as an artist. Miss Rosenfield should be justly proud of her first recital, she having devoted only a few months to the study of technique and interpretation.

The proficiency of these two young ladies is due to the instructions they have received from their respective teachers—Miss Jean Duncan, who has charge of the education department in the Lindsay-Wilson, and Miss Hattie Penland, who is in charge of the music department. They are thorough in their respective callings and are perfectly devoted to their pupils.

## ELOPEMENT.

An Adair County Couple Leave Columbia for Tennessee.

Mr. Ray Williams, of Casey's Creek, son of Mr. John Williams, and Miss Pinalea Russell, daughter of Mr. John Russell, of Watson, eloped for Tennessee, last Monday morning, leaving Columbia at 4 o'clock. As we go to press that there were parades projected as both the young people belong to good families. We trust that this union will be a blessing to the young couple, and that the remainder of their days may be spent in unalloyed happiness.

A number of citizens met at the Court-house last Monday afternoon to take steps for the home coming week, the meeting to follow the one to be held in Louisville June 14, 15 and 16.

Gov. J. R. Hindman, was elected Chairman and J. McScott and J. E. Russell, Secretaries.

On motion the following committee was appointed:

On Arrangements—W. F. Jones, H. W. Bradshaw, G. W. Robertson, T. A. Murrell, W. H. Myers, F. R. Wharfey, J. McScott.

On Programme—W. W. Jones, H. B. Baker, J. O. Russell, J. R. Hindman, Rollin Hurt, A. G. Todd, J. E. Murrell.

## FOR SALE.

One span of extra good, three year old horses; also one extra large jennet. L. O. McFARLAND, 20-21 Rowan, Ky.

The intelligence of the death of this estimable lady was received by relatives here last Saturday night. She was a daughter of Capt. James Murrell, and was born and reared in Columbia. In 1857, then a young woman, she left this place with relatives for Honey Grove, Texas. In a few years after her arrival, she was married to a gentleman named Davidson, who lost his life in the Confederate army. After the close of the war she was again married to Dr. Dailey, a prominent citizen of Honey Grove, with whom she lived happily until his death, which occurred many years ago. The deceased was visiting here several years ago. "She is one of the best women I ever knew." Had she lived until next November, she would have been seventy years old.

She was a brilliant, called "Puss," and her death not only brings sorrow to her relatives, but to her many friends.

MRS. AMANDA LOY.

In the passing of this excellent woman, the Fairview neighborhood has sustained a great loss, and her children a devoted mother. The end came Monday, the 28th, all the members of the family being present.

The deceased was the widow of the late W. C. Loy, and was fifty-one years old. Early in life she made a profession of her faith in Christ, and united with the Methodist Church, and lived a consistent Christian until her death. The interment was near the late residence, many relatives and friends being present.

## JUST RECEIVED.

Mrs. Tim Bradshaw, has received her stock of millinery, the nicest line she has ever offered to the public. The goods were selected by Miss Effie Bradshaw, who has been in the market the two weeks. Ladies are invited to call, satisfaction guaranteed.

MRS. TIM BRADSHAW.

Mr. and Mrs. G. W. Staples, who are costly domiciled on Greensburg street, gave a duck supper last Thursday evening, entertaining the following friends: Mr. and Mrs. Geo. Stults, Miss Dau Marcum, Miss Jean Duncan, Dr. R. Y. Hindman and Mr. J. D. Hughes. The supper was very much enjoyed and the evening delightfully spent. We trust to a future duck suppers. Mr. Staples a great deal of amusement causing heads of prostration to drop from his brow, and at that time he swore vengeance against Webb-footed fowls, and he has now started on the mission of exterminating the entire tribe.

WHITE POULTRY YARD.—Eggs from pure bred chickens. White Plymouth Rock eggs 50 cents per set; set of 15. White Leghorns for setting, 50 cents. White or yellow for what you want.

J. V. WIRRE, Proprietor  
17-1m Columbia, Ky.

Last Thursday morning the little child of Mr. and Mrs. D. D. Lawless, of Cane Valley, died, being sick only two or three days. The little one was only 18 months old and was active both as to walking and talking. The parents have the sympathy of the people of that community as it was their only child and death was not expected at that time. The parents desire to extend their thanks to the people who so kindly administered in this their sad bereavement.

The statement that there are no lots in Columbia upon which to build is a mistake. We went over a good portion of town one day last week and quite a number of nice building lots were pointed out, and we were told that they could be purchased. Opposite where John Lee Walker and Geo. T. Flowers are erecting houses there are four or five building lots. The property of Judge W. W. Jones, that would make a dozen resident lots. We understand this land is for sale.

J. T. Johnston, of Cane Valley, bought a pair of mammoth bronze turkeys from Mrs. A. E. Owen, of Shelby County, for \$15. This is said to be the finest pair of turkeys ever brought to this county.

## THE COUNTY UNIT LAW.

Full text of the measure passed by the Legislature.

Be it enacted by the General Assembly of Kentucky:

That section 2,560 of the Kentucky Statutes, it being a portion of article 1, of chapter 81, of the Kentucky Statutes, entitled "Liquors, Intoxicating," be, and the same is hereby, repealed, and in lieu thereof it is hereby enacted:

(a) "No election in any town, city, district or precinct of a county shall be held under this article on the same day on which an election for the entire county is held, except that cities of the 1, 2, 3 and 4th class may hold an election on the same day on which an election for the entire county is held. When an election is held in an entire county, and a majority of the legal votes cast at said election are against the sale, barter or loan of spirituous, vinous, malt or other intoxicating liquors, then it shall not be lawful to sell, barter or loan any such liquors in any portion of the county. If at such an election for the entire county the majority of the legal votes cast are in favor of the sale, barter or loan of any such liquors, such election shall not operate to make it legal to grant license to sell, barter or loan such liquors in any territorial division of such country from which the sale, barter or loan has been excluded by an election held under this article, or by special act, but the status of such territorial division shall remain as if no such election had been held.

(b) "No election shall be held in any election precinct under this act on the same day on which an election held for the district or city of which the precinct is part. If an election held for such entire district or city, the majority of legal votes cast shall be in favor of the sale, barter or loan of spirituous, vinous, malt or other liquors, then the status in the several precincts thereof, shall remain as it was before said election; but if the majority should be against the sale, then the sale, barter or loan of such liquors shall be unlawful in every portion of said district or city."

## ODDS AND ENDS.

Do you throw away your old calendars? A Paris statistician has discovered that it is a mistake to do so, and being of an economical turn of mind, has discovered further that calendars for 1900 will serve equally for 1906.

A weighing machine, said to be one of the most powerful in the world, has been invented and is being made at Birmingham, England. It is capable of registering a load of 120 tons.

The curiosity of a woman who examined some colored rock she noticed in San Bernardino county recently, resulted in the earthing of a turquoise mine. It has just been sold for \$24,000 to C. W. Baldwin, of New York.

The manufacturers of gloves say they make a No. 6 woman's glove larger than they did five years ago. Women have become more athletic and their hands have grown larger, but they insist on wearing the same number of gloves.

It is scarcely fifty years since the first friction matches were invented. They were merely splinters or shavings of wood tipped with sulphur. The sulphur wood burst into flame when being dipped into a bottle of phosphorus.

## WILL VISIT US AGAIN.

This year, 1906, will be the period for the visitation of the seventeen-year locusts. They were here in 1889, 1872, 1865 and further back the editor cannot speak from personal recollection. But they will not be so thick the coming year as in past years. They depend on the tender twigs of trees for nesting places, the eggs being deposited in the soft twigs. The newly hatched grub feeds on the juice until the twigs die from its effects and fall to the ground. The larva then burrows into the ground and remains until its 17-year period of development has passed when it comes to the surface, climbs up the side of a tree and in the natural process develops into a winged "Pharaoh," after which it repeats the process of reproduction just as its ancestors did 17 years before. But the continued cutting away of the timber narrows the breeding grounds of the insect until now the crop is not nearly so large as the previous one. The insect is one of nature's curiosities.—Winchester Democrat.

## Blood Poisoning

## JOWL AND GREENS.

A prominent farmer, of Woodford county, is mourning the loss of a farm hand which came about in a rather unexpected way. During the winter just passed the regulation canned stews have been on the farmer's board every day. One day last week the good housewife thought she would have a change and accordingly sent the hired girl out to find a mess of fresh greens. These were prepared in such a way as is known only to Kentucky cooks and were served up on the table with a luscious lump of hog jowl which the cook thought good enough to melt in the mouth. When the family together with the hired man had assembled around the board, the head of the family having returned thanks at once began to serve the the tempting jowl and greens. Each member gladly received a liberal portion, but when it came Mr. Farmhand's time he declined with thanks. Pressed for a reason for his refusal which was incomprehensible to the rest he replied: "Mr. S. if I were to eat some of that I could never look a hog in the face again without blushing. If that is what you expect to feed me on just give me what you owe me and I will move on to some place where hog jowl and grass are not on the bill of fare."

With that he retired and all efforts to get him to remain were unavailing.—Midway Clipper.

She was a faithful and loving companion, kind to those around her, and a devout Christian. She was taken sick four days before her death, and talked of dying before her family apprehended danger, and as her sickness developed she continually expressed her willingness to pass over to the other side. Among the many things she said to comfort her stricken friends assembled around her bedside, was: "Jesus will raise me up." "I am ready to leave my outgrown shell beside life unresting sea." "Tell father to come to heaven for I will be there." "Tomorrow I will sing in heaven with the angels. She died with a bright smile on her face. She leaves a husband, three children and many friends to mourn her loss.

## Miserable Conditions.

Of body and mind, always result from a sedentary life, leading to bile poisons being absorbed into the blood and poisoning all the nerves and tissues. This dreadful state, some of the symptoms of which are headache, bitter taste, nausea, lack of appetite, yellow complexion, constipation, etc., can be quickly cured by taking Dr. Caldwell's (laxative) syrup Peppermint. It relieves the strain on your liver, relaxes the tightened bowels, purifies the blood, strengthens the stomach, and makes it a clean, healthy vehicle. The result is perfect health, and freedom from pain and discomfort. Try it. Sold by Dr. J. N. Page, Columbia, Ky., and Page & Moore, Canoe Valley, Ky., at 50c and \$1.00. Money back if it fails.

## Danger From The Plague.

There's growing out from the plague of Coughs and Colds that are prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls, of Forest City, Mo., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly relieves them. It prevents Pneumonia, cures LaCripe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds. 50c and \$1.00. Guaranteed by T. E. Paul at drug store. Trial bottle free.

## YOSEMITE.

A Science Hill correspondent of the Mountaineer, mentions the fact that one of his neighbors has a lame horse. Would it be out of place for us to mention that Lincoln Wells' old doc, "Jim" has been going on three legs for several days?

J. C. Loy has moved to Liberty. He is Deputy Sheriff, but will try his hand at the practice of law. Jess is a general utility sort of fellow any way. He can do almost anything, besides he is one of the jolliest of men.

We notice that one J. C. Brown, a veterinary surgeon, of Woodstock, Pulaski county, is trying his skill on a broken legged mule, and the Mountaineer scribe of that place says if he has "good results" it will be a feather in his cap. If he comes out of the job with any cap at all it will surprise us greatly. Veterinary practice on a mule is usually attended with a great deal of danger and uncertainty, to the practitioner.

We had a runaway in a few days since. George Drye, our huckster, drove into town and left his team standing in front of Jason Coffey's store, when the horses took fright and ran at break neck speed. They were stopped at the Christian Church, after a run of a quarter of a mile.

William Sweeny, who is attending the Menical College at Louisville, is at home for a short stay.

The River was up several days last week, and put our nail out of joint. The Courier Journal did not reach here until Friday, and the Adair County News has not come yet, but we are expecting it any moment.

## GEORGE WASHINGTON.

The best paper on The Life of George Washington—as written by Miss Taylor's pupils the M. & F. High School—was found to be Arthur Holladay's. She has again asked The News to publish it, which we gladly do.

Washington was born in Moreland county, Virginia, February 22, 1732.

When Washington was a little boy he went to school to a man named Hobby and learned to read, write and spell. He was very bright and always had his lessons up. After school he would ride the boys for he loved to play soldier. He could run very swiftly and could jump very far and ride any horse he ever saw. He always told the truth, and when the boys would have quarrels they would come to George to settle it.

When George was sixteen (16) years old he went to survey, for a man named Fairfax. This was a very rough way to make a living but he made from twenty-one (21) to twenty-seven (27) dollars a day, but this was very good for George because he learned to be a soldier.

Sometimes he would sleep out under the open sky on some straw and one night the straw caught on fire and he would have burned but a man awakened him.

When Washington was nineteen years old he was sent to the French with the message that they were on England's land and that they had better get off. He had to go over mountains. It was rough and a very dangerous trip but he got home all right.

Washington was a general in the French and Indian War, and if Braddock had paid attention to him he would not have been wounded.

During the Revolutionary War Washington was general of every Colony and the soldiers did every thing he wanted them to do.

When the war was over he was President two terms, which every one wanted him to be.

One day Washington was out in the field and got very wet. His death was caused by a severe cold. He died at Mt. Vernon in the year of 1799.

## The Adair County News.

Published Every Wednesday

BY THE

Adair County News Company,  
INCORPORATED.CHAS. S. HARRIS, - EDITOR  
Democratic newspaper devoted to the interests  
of the city of Columbia and the people of Adair  
and adjacent counties.Entered at the Columbia Post Office as second  
class mail matter.

WED. APRIL 4, 1906.

The Fiscal court is now in session and the many pulses that beat to the tune of advancement and progress will be in suspense until that body has outlined a policy that will lead to better conditions in this county. The two overshadowing questions now before the court, and the two most all our people feel a deep interest in, the two that will add more to the growth and prestige of Adair county are, roads and bridges. We can not state, neither can we foreshadow the action of the court on either or both of these questions for we do not know but to the point we wish to state, that never before in the history of this county has there been a more real desire for good roads and more bridges. This paper has contained from one to two columns of interviews each week from January 1st to date, bearing on the aforesaid questions, and with but few exceptions, every citizen has not only expressed a desire for such improvements, but urgently demanded that a move for good stone roads be inaugurated. The prevailing sentiment is for the purchase of a stone crusher and its use economically applied. It is our judgment that a crusher should be purchased and where ever the people will aid the county in making the road, there it will work. Beyond a doubt our roads are in a fearful condition, and some line of action that will result in making macadam roads should be instituted. The heavy tax payers are ready and demanding that something be done and if the Court ever intends leading out on progressive lines now is the most opportune time. We trust that these important questions will not be lightly considered and that the Court will start a work that will result in great good to the county.

The Spectator, last week, credited Mr. M. Rey Yarberry with keeping Adair county in the Eleventh Congressional district. Mr. Yarberry has done many things politically, we admit, but to sit in Washington, D. C., and by pen and wire, ink and electricity, dictate and control a strong Democratic Kentucky Legislature, is possibly the greatest political feat ever performed by a Republican in this State. Mr. Yarberry is a young man well endowed and schooled in the institution of Republican policies; he has shown skill and aptness in turning salt to sugar, wrath to love and defeat to victory. That Mr. Yarberry and a few other Republicans are credited with defeating the intent of a Democratic Legislature is indeed most remarkable. There is no difference between the real article and first class taffy so far as the recipient is concerned, but sugar coated pellets are often detected.

Nearly half a million miners set aside their picks last Saturday night, waiting for an advance in their wages. The general strike appears to be defeated and the probability is that at an early day all the miners will resume work at the small advance they demand. It is to be hoped that the operators will agree on the scales asked and that the business of the country will be saved from such disaster as would follow the closing of the mines.

The bride is an accomplished young lady and is a grand-daughter of the late Thos. J. Keltner, of this community. We are not personally acquainted with the groom, but understand that he is a perfect gentleman and a good business man. Their many friends wish them a happy voyage through life.

Hon. Dick Winfrey, in company with our County Attorney, Paul Smythe, of Columbia, attended Squire Shuffit's first court near this place last Tuesday. There was a case or two of much interest, that brought a large attendance at this court. A party or two charged with hog stealing, and we all know when we hear of hog stealing and if it can be proven, it means a free ride sure.

Mr. W. E. Hillis, of Waterville, was in our mids a day or so last week, and while here he closed a deal with Mr. Williams, of Neohoh, Ky., selling him his young Peacock Stallion that Mr. W. L. Grady has had in his care for the past year, for \$450. This is considered one of the finest young horses in this part of the State and we are sure Mr. Williams has made no mistake in purchasing this horse. The stock men of this section cannot keep from

liking the horse. Mr. Hillis informed your reporter that he had a two-year-old Peacock mare that had been shod 8 times and carried off 7 blues. The Peacocks will get there every time.

Mrs. Wilborn, widow of the late James Wilborn, of New York City, is visiting her sister-in-law, Mrs. S. V. Wilkison, of this place.

W. E. Dudley sold a horse to L. P. Hurt for \$140. Robert Wilborn received a like sum for a horse which he sold to A. Dunn, of Columbia.

A letter from W. L. Taylor, who recently removed to New Mexico, states that he landed O. K., and that he is preparing to occupy his newly acquired prop.

J. V. Wilborn, of Indiana, is visiting his mother, Mrs. Matilda Wilborn, in this place.

F. A. Strange has rented and removed to H. K. Walkup's farm 24 miles South of this place.

The fruit crop promises to be a good one this season. It is a lamentable fact that the orchards in this section have been neglected to so great an extent that when we do have a full crop it is not hardly worth gathering. Most of our apple orchards consist of Short Core, Kelsey Red, and Wring Jaw, which do not bear so often, one tenth as much nor one hundredth part the value of some other common, but worthy varieties, while the peach produces regularly and invariably, five knots in one side and three worms in the other.

## TWO SAD, TRUE PICTURES.

Drawn with a pen are two pictures, illustrating the Chattanooga chapter of two crimes recently enacted:

## CHAPTER ONE.

Out at Forest Hills Cemetery there is an old man with gray hair, bowed in unspeakable grief. He is the sexton of that city of the dead. He lives in a cottage with his children, his wife having passed on to her reward. He has two grown daughters and several smaller children. His oldest daughter is his housekeeper, doing the part of the mother to her brothers and sisters. This is a younger daughter, a modest, refined girl of nineteen. She had been keeping books for a mercantile firm in the city, the proceeds of her labor going to help sustain the family, doubtless. Returning from her work after dark, she is set upon by a negro. A leather strap is buckled about her throat, and she is choked into insensibility. Then she is picked up bodily and thrown over a fence into a vacant lot. The brute follows her. Here we draw the curtain on the crime. Manhood and womanhood are shocked by the outrage. A pure life is blasted—a happy home blighted.

## CHAPTER TWO.

A mob composed of probably fifty men, some of them disengaged and some of them not, entered the Hamilton county jail at Chattanooga, Tenn., Monday night, laid violent hands on the negro rapist, Ed Johnson, carried him to the county bridge, over the Tennessee river and there shot him to death, after failing to hang him.

He was tried in the criminal court of Hamilton county, Tennessee, and convicted of the crime with which he was charged. There was not a scintilla of doubt in the minds of the jury that he was guilty. He had able counsel to defend him; was given every opportunity to establish his innocence, and he failed. His attorneys examined the record carefully; other lawyers were called in as advisory counsel, and together they examined the record. Their unanimous verdict was that the negro had been fairly tried and that an appeal to the Supreme Court of the State was useless. They communicated their conclusion to the negro, and he expressed as satisfied with the trial. He waived his right of appeal and expressed his readiness to meet his fate.

Following this action a couple of colored lawyers took up the case at the request, they assert, of the family of the man. By filing a petition with the judge of the Federal Court of that district for a writ of habeas corpus, the case was transferred from the State to the Federal Courts. Judge Clark dismissed the application for the writ of habeas corpus. Then an appeal was taken to the Supreme Court of the United States. Monday that court granted an appeal, and the mob followed.

## Nervous School Children.

Statistics gathered by various School Boards, show that a large percentage of school children suffer from different forms of nervousness, mild or exaggerated. Some showed a tendency to melancholy, others to depression, many the nervous twitches of mild epilepsy, or St. Vitus' dance. Most of these troubles can be overcome by proper food, sufficient sleep, and Dr. Caldwell's (laxative) Syrup Peppermint. It is a universal children's medicine, because, if good food is eaten, it insures that the food is properly digested and indigestion and nervous poisons properly thrown out. It is pleasant to take, and safe and sure in results. Try it. Sold by Dr. J. N. Page, Columbia, Ky., and Page &amp; Moore, Camp Valley, Ky., at 50¢ and \$1.00. Money back if it fails.

Casey Creek, Ky., 3/26/06.  
Editor News:

Not seeing anything from this part of the county in regard to the Fiscal Court buying rock crushers, will here state that Casey Creek has always been in favor of public improvements. I have conversed with a goodly number of citizens in and around Ryley and as far as Neatsville, and you cannot find a man in favor of rock crushers, and the fact is simply this; we don't need any, as we have plenty of gravel.

Some say you cannot make a permanent road out of gravel, but that is a sad mistake. If you will put on enough gravel you can have as fine a road and as lasting a road as you need to want. The above is by request.

I will now give my individual notion about matters. The country records will show that while I served as Magistrate of District No. 1, instead of abetting that my vote was cast for every bridge that has been built in the county, and will further say that

I am in favor of the Fiscal Court taking up the question at its present term, and building a bridge at old Neatsville, and one above Plum Point across Casey Creek, and one on Pettiford where needed.

Of course I am in favor of good roads also, but first make the water-courses that get fast flowing, possible to cross over by the addition of a bridge, and then look after better roads. You might, as you very well know, have a pile on each side of the river at Neatsville, and no bridge, and the pile would be no advantage to the traveling public.

## WITH OUR CORRESPONDENTS

### FROM INDIANA.

TERRE HAUTE, MAR 25, 1906.  
Editor News:

As this is my first communication to my old home paper this year, I wish to congratulate the readers and correspondents of the News, and to thank God that I am living and able to write one more letter.

Of course it is useless for me to say that I am not in the habit of writing letters to papers, but as I sit down to do some correspondence, I remember that I am in the same place that I was when I wrote a letter to the News last summer. So I concluded that I would write again, and by so doing let the people of Columbia know where one of their "wandering boys" is to-night."

I have been to church and heard a minister who is doing more good to build up the State of Indiana than almost any other man, and he is being complimented by every large paper in the State. He goes after the lawless, and it is easy to see that he is bettering the morals of Terre Haute. It is to be regretted that there are not more like him. Columbia, Ky., has always been a law abiding place, and it is a great pleasure to me to boast that my home is in that town, and that peace and quietude reigns. It is a true saying "As the twig is bent, so the tree is inclined."

While at church the congregation sang that old hymn "How tedious and tasteless the hours, etc., and that old song anybody can appreciate who was reared in Adair county and attended church at old Tabor, and while helping to sing the song my mind wandered back to my childhood days, the days that were too sweet to last; and as the song went on my imagination ran so high that I could see some of the faces and hear some of the voices that sang at old Tabor, and such thoughts are next to angelic scenes; and I almost broke down and could hardly finish the song, the memory of these old scenes being so dear to me. There is no picture so pretty, no poetry so sweet that will compare in grandeur to my childhood playground. There the Sun shines brighter, the wind is softer, the birds sing sweeter, Summer shade is cooler, Winter snow is warmer, Friendship is stronger and maiden hearts are truer than any where else.

I am proud that I had the moral courage to move back to my old county, and to once more call Columbia my home, henceforth and forever.

I am no longer with the R. J. Darnell Lumber Company. I had a chance to better myself and took advantage of it. I now travel for the Heath Whiteock Co., Chicago, and will start West the first of April. While I am a salesman I am also manager of the West Coast product. I will make trips to the coast three times a year. If any of my friends should meet me in my travels I will do my best to entertain them. With best regards to the people of Kentucky, I remain an Adair county boy.

A Badly Burned Girl  
or boy, man or woman, is quickly out of pain if Buckland's Arnica Salve is applied promptly. G. J. Welch, of Tecumseh, Mich., says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect." Quickest Pile cure known. Best healing salve made. 25¢ at T. Paul's drug store.

### TEXAS.

As I did not see Texas represented in the News last issue and for fear that it will not be this time I will give you a few items from the Brownwood country. At present everything looks flourishing; fruit trees are in full bloom, the peach orchards are indeed beautiful, clothed in their coat of pink and white with the snow white bloom of pear, plum and apricot. The green wheat fields are very promising; corn is up and will soon be large enough to plow. Will not plant cotton for some time, as it comes very quickly and if cool weather comes on it takes "sore shin" and dies. Cotton is the money crop here and is a good one as one man can manage so much. It is a clean, nice work through the entire season, and as long as the farmer can get 10 cents for his cotton crop he can live like a lord. I would like to note right here, this country has undergone quite a change in the last ten years. Ten years ago the whoop of the cowboy was heard in the valleys now occupied by the whistling plowboy, and the poor cowboy has had to retire to the Plains or the Pecos river country.

Farming is the paramount issue and everybody is wanting to farm. Agriculture is progressing rapidly, nothing but the latest in proved machinery is used, hence work is more delightful than if following an old jumping colter on a steep hill-side.

I will speak a few words for W. H. GILL.

## FROM MISSOURI.

Bevier, Mar. 14, 1906.

Editor News:

I want my name written there on the page white and fair, so I enclose \$2 to apply to my subscription, which puts me in advance. We are having bad weather out here, snow, sleet, rain, mud and everything else to make roads bad and disagreeable.

It is nearly impossible for wagons to go with any kind of a load and many people out of coal. I notice that you are advocating stone crushers and the making of solid roads in Adair county.

I heartily favor the building of good roads, and I trust your policy will win, and that Adair county may lead in such a valuable move, so important to farmers in that section. We have plenty of mud here, and I know how disagreeable and unpleasant the roads are. I am still in the grocery business, and also in the midst of a blizzard which has lasted three days and the end is not yet in sight.

Yours truly,  
JAMES W. DIXON.

## Notice.

Four monuments that sold at \$75 can now be bought at \$90; four that sold for \$25 now \$20, one that sold at \$90 now \$65. When these are cleared out no more can be had at these prices.

## Jordan Peacock--The Greatest Horse

## In Kentucky

JORDAN PEACOCK will make the present season at Gradyville, Kentucky, and will serve mares at \$15 to insure a living colt one week old. If any mare should loose a colt by carelessness or rough treatment then the season is due. Jordan Peacock has sired more high priced colts than any horse in Kentucky. Cotton and mules have their ups and downs but The Peacocks are Always Up. The Horse Buyers are always looking for Peacocks, and pay from two to three times as much for them as they do any others. Last Fall his Suckling Colts Sold from \$100.00 to \$135.00; Flowers Bros. sold a 2-year-old mare for \$325; a 4-year-old gelding sold March 8, in a pair for \$285.00. Did you ever know of any other horses in this part of the State that sold for such prices? When you breed to Jordan you are going to get a good colt and one that's ready money as soon as it hits the ground. There have been some men that have sold their colts as soon as they bred the mares. Now if you want to raise the best, bring your mares to Jordan Peacock.

## CAPTAIN PEACOCK, A 3-YEAR-OLD STALLION

By Jordan Peacock and Dam by Colonel Tom, will make the season for \$10 to insure. Captain Peacock is the best prospect I have ever seen. He has been shown at the Columbia Fair from a suckling colt up, under halter, single and double, and has worn the Blue every time and has defeated some of the best age horses shown at the Fair.

Bring your mares to my Horses and you are sure to get a colt and a good one.

I WILL STAND TWO JACKS AT \$5. AND \$7. to insure a mare in foal. Money is due in all cases when the mare is traded or leaves the neighborhood. All care will be taken to prevent accidents, but should any occur I will not be responsible. Grass at 50 cents per week or grain fed at cost. Thanking the people for past patronage and soliciting a continuance of same, I am respectfully,
